

ISOCC 2022 Program Schedule At-a-glance

Please check the presentation time with the paper number you submitted to CMT.

For the regular oral papers (including special session papers), the presentation time is 15 minutes, typically 12 minutes for presentation and 3 minutes for Q&As.

The poster presentation time is October 21 (Fri), 2022.

The schedule according to the local conditions may be changed.

Special Session

SS 1	Design and Testing Techniques for Computing-In-Memories
SS 2	Memory-Centric Accelerator Design for Deep Neural Network Applications
SS 3	Algorithm-or Architecture-Level Schemes for Reducing Operation Complexity of Neural Networks
SS 4	Design, Analysis and Tools for Integrated Circuits and Systems (DATICS)
SS 5	Emerging Applications and FPGA Implementation of Machine Learning
SS 6	Hardware Security, Reliability and Trust for SoCs
SS 7	Analysis and Design of Power and Energy Circuits and Systems
SS 8	Emerging Applications of Intelligent System Semiconductor
SS 9	Low Power Accelerator Design Utilizing Neural Networks for IoT Applications
SS 10	Emerging Techniques for Neural Networks, Non-linear, and Bio-related Circuits and Systems
SS 11	Circuits and Systems of Artificial Intelligence and Security
SS 12	Simulation and Analysis for Nonlinear Problems
SS 13	Design and Analysis of Nonlinear Circuits and Networks
