

ISOCC 2023 Program Schedule At-a-glance

Please check the presentation time with the paper number you submitted to CMT.

For the regular oral papers (including special session papers), the presentation time is 15 minutes, typically 12 minutes for presentation and 3 minutes for Q&As. The poster presentation time is October 27 (Fri), 2023.

The schedule according to the local conditions may be changed.

Special Session	
SS 1	Advancements in Intelligent System Semiconductors
SS 2	Hardware and software design techniques for AI processing platforms
SS 3	Circuits, Systems, and Devices for Optical Communication Technology for 6G and Beyond Future Communications
SS 4	Simulation and Analysis for Nonlinear Problems
SS 5	Emerging Techniques in Algorithm and Architecture for Advanced High-Performance Circuit Design
SS 6	Design, Analysis and Tools for Integrated Circuits and Systems (DATICS)
SS 7	Emerging techniques for neuromorphic, non-linear, and bio-sensing circuits and systems
SS 8	Circuits and Systems for Artificial Intelligence and Homomorphic Encryption
SS 9	Chiplet Heterogeneous Integration Technolog
SS 10	Design and Analysis of Nonlinear Circuits and Networks
SS 11	Enabling High Performance Ultra-Dense Storage Systems
SS 12	Bio-Inspired Computation in Circuits and Systems
